THE MAN OR THE ISSUE?

Dwight W. Morrow, New Jersey's first citizen, is the Republican party's choice as candidate for United States senator from his state. It seems likely that he will be elected, since he faces no serious opposition.
From the moment that Mr. Morrow announced his candidacy there have been expressions of faith in his ability and character. He is undoubtedly one of the most likeable men in the country, personally, and his distinguished public record has surrounded him with unbounded good will. The prospect of the leadership that he will supply in the senate has been described in glowing terms by Republicans and Democrats alike. In short, the setting was perfect for his success in the primary contest.

The citizens of New Jersey voted for Mr. Morrow last Tuesday because they believed he was the best candidate. Franklin W. Fort, Congressman, and Joseph S. Frelinghuysen, former senator, were worthy opponents, but neither has the public following enjoyed by Mr. Morrow. It is thought Charles G. Dages were to have been a candidate for the Republican senatorial nomination in Illinois. The other candidates, worthy as they were, would have been outclassed.

It must be with some amazement that Mr. Morrow takes account of the reactions to his victory. It is his stand on prohibition that is being used to describe him—a man whose personal habits brand him a dry. Yet, wet and dry counties voted for him in equal measure. Mr. Morrow's political education, and the primary campaign just ended was literally his first step in securing that education, will open his eyes to the fact that a candidate is less important than an issue for purposes of propaganda. The victor is the successful banker, leading citizen, arbiter and public servant, but he who is acclaimed victor is the man who, quite incidentally by his own confession, favors state control of prohibition. Mr. Morrow has entered politics.

The outcome of the primary in New Jersey labels the Republican party in that state wet, a development which is expected to have an effect in New York and Massachusetts, in which states the party has not yet declared itself on prohibition. The victory also means other things to other groups with special interests. Few, however, have noted a greater significance—that Republicans, Democrats, wets and dries alike have rewarded outstanding merit with their votes. That certainly should be ranked as of equal importance with Mr. Morrow's stand on prohibition.

The Chinese rebels were credited with winning this week, which goes to show that the alternate week, scheduled is being rapidly maintained. Last week all the reports were of government victories.

What Others Say

SIR ARTHUR DISDAINS HIS BRAT
Sir Arthur Conan Doyle has virtually disowned his child, Sherlock Holmes. Upon reaching the ripe age of 71, he declares that he considers Sherlock dead and is sick and tired of being constantly described as the great sleuth's father. "One would think I had written nothing but detective stories," he asserts, petulantly.
Sir Arthur is a physician and the author of a number of weighty tomes on scientific subjects and some excellent fiction. He prefers to be recognized as the parents of these wags and wants to live down the fact that, in his younger and less responsible days, perhaps, he fathered a bizarre creature who was

born without benefit of scholastic and literary sanction.

But as has frequently been the case, this metaphorically illegitimate offspring of his has grown up to be the peer of all those whom he sired. Sherlock has made his mark in the world and his light dimes that of his less brilliant brothers and sisters. The world knows him and his great exploits, hold him up as a model of intellectual accomplishments and heaps honor after honor upon him.

Sir Arthur has no reason to be ashamed of his parenthood, for Sherlock has leaped the barriers of convention and brought fame and honor to his father. Age should mellow his attitude toward this "little accident" of his youth and he should find comfort and consolation in Sherlock's exalted position in the world of letters. What have his other and, as he seems to think, more respectable and orthodox offspring ever done for him? Little, except to lie around and collect dust on the shelves of savants, we'll vow. They will be forgotten long before Sherlock passes from human memory.—The Columbus Dispatch.

That Coolidge Boy's Back!

HEALTH

By Dr. Royal S. Copeland

"NEPHRITIS"

When your doctor tells you some member of your family has "nephritis," you are greatly distressed. Of course the disease is serious, but I beg of you not to class nephritis with the incurable diseases. On the other hand, you can not be careless.

The greatest care in diet and habits should be exercised. General inflammation of the kidneys is called "Bright's disease." It is named after Dr. Richard Bright, an English physician, who first described the association of symptoms in 1827.

High blood pressure, the presence of albumen in the urine, and frequently dropsy may indicate the existence of nephritis. This is not always true, however. Many persons have high blood pressure without a kidney condition. Albumen in the urine may indicate wrong dieting, nervousness or some other temporary disturbance.

An acute attack of Bright's disease may be brought on by exposure to cold, or by taking certain poisons. It may be a complication of some acute disease, such as erysipelas, diphtheria and especially,

scarlet fever. The onset of the disease is usually severe in character. There is pain in the back, paleness and puffiness of the face, swelling of the ankles, fever, sometimes nausea and vomiting.

The urine is scanty and abnormal in color. There are chemical changes which can be determined only by an analysis.

The utmost care must be exercised in the treatment of a person showing symptoms of Bright's disease. The patient must remain in bed, usually between blankets to stimulate the action of the skin. The diet is mild—often confined to milk. Large quantities of water and alkaline drinks are given to help flush the kidneys. It is essential to set up sweating and free kidney action to carry off the poisons. Your doctor will prescribe the proper medication and will oversee the general care.

Living at high speed and overeating must be avoided if we want to keep well. But late hours, any over-indulgence in food or drink, strenuous mental exercise and excessive fatigue are all factors in the development of Bright's disease.

KIDNAP VICTIMS TORTURED WHILE HELD PRISONERS

Confessions Of Detroit Gang Tally To Detail, Officials Report

POLICEMAN HAD GANG CONNECTION

Murder Of Victim Also Told In Confession, Police Reveal

(By The Associated Press)
DETROIT, June 19.—Detroit police today announced they had obtained confessions involving a high police official and a prominent attorney from Joseph (Legs) Laman, convicted kidnaper, and other members of Laman's gang of kidnapers and murderers.

Laman told a detailed story of the kidnapping racket in Detroit covering almost 10 years reign of terror which culminated last year in the kidnapping and murder of David Cass, son of Gerson Cass, wealthy retired real estate man.

Hundreds of thousands of dollars ransom money was collected by the gang.

Tells Police Story
Laman said he decided to tell all he knew after he found he was "double-crossed" by the police official in the kidnapping of Harry Cohn, retired furniture dealer. Laman said \$20,000 ransom money was left in an automobile and taken by the police official. Cohn was freed, but Laman received none of the money.

Confessions were obtained from Stanley De Long and his wife Florence after they were threatened with execution in the electric chair in Ohio for murder of an unnamed man in or near Toledo.

Laman and Harry Andrews, who also made a confession, are serving 30 to 40 year terms in Michigan state prison at Jackson for kidnapping Fred Begeman, retired Wyandotte bootlegger.

Confessions Tally To Detail
Police said the confessions of Laman, Andrews and the De Longs agreed even to minute details and involved Mrs. Doris O'Reardon, arrested early this week and held in \$150,000 bail on a kidnapping warrant, her husband, Joseph O'Reardon, alias "Red" Reardon, whom police are seeking, Ben Rubenstein, Harry Hallisey and Howard Barkley, who are held here, and several others.

Shortly after he was "double-crossed" in the Cohn kidnapping, Laman said he formed connections with Edward Wiles and Fred Hohfer, who are serving life terms for the murder of young Cass, and "Jimmy" Walters, owner of a night club who was slain by gangsters two months ago.

Planned Kidnaping
These men, he said, engineered the kidnapping of Cass. Laman was shot and captured by police while attempting to collect a ransom from Cass' father. He said Wiles and Hohfer became frightened then and decided to kill young Cass. David Cass' body was found near Laper, Mich., last October.

Laman told of methods used to make victims write ransom letters. He said lighted matches, cigars and cigarettes were applied to their bodies. Eyelashes were pulled out. A hot iron was held close to their eyes or used to sear arms and legs. They were shown open graves and in several cases trussed up and made targets for "fancy" shooting, with bullets grazing their bodies.

Nearly all of the victims were tortured before they were asked to sign letters, Laman said, and most of them were eager to sign.

appeal for a review by the supreme court. He shot Frank Pelegri, Mansfield, owner of a soft drink establishment, during a raid. McGraw claimed that the shooting, which occurred April 20, 1929, was in self-defense.

The supreme court turned down the request of the Columbus Gas and Fuel company that the state utilities commission be compelled to hear its appeal from the city's 48 cent rate ordinance. The commission refused to consider the case until the federal courts have disposed of 65-80-55 rate which the Gas company seeks to have declared valid. The latter rate was defeated by referendum.

Uphold Mahoning Courts

Upholding the lower courts of Mahoning county, the high tribunal ruled against the minority stockholders of the Ohio Leather company, who had sought to have the company's reorganization plans declared void. The suit was instituted in 1923 when the company's financial condition was menaced by falling leather prices. Since the reorganization, it has been paying dividends.

The lower courts of Stark county were reversed when the supreme court absolved the County Agricultural society from blame in connection with the injury of Thomas Brenner, 7, who attempted to explode a fireworks bomb found on the society's grounds. The boy had obtained a judgment for \$35,000.

The Commercial Casualty Insurance company failed to escape full liability for a \$2,500 judgment obtained by George Steiner, Canton, against the Knutson Motor Trucking company. The insurance company claimed it was liable for only half of the judgment since the Knutson company carried another insurance policy. Steiner won the judgment for personal injuries and the supreme court declined to review the lower court's award.

INSANE KILLER HUNT GROWS IN EASTERN AREAS

Third Victim Murdered Last Night, Note Tells Newspaper

(By The Associated Press)

NEW YORK, June 19.—Search for the body of a supposed third victim of an insane killer who has terrorized Queens was started in the Bronx today when a newspaper received a letter from the slayer naming the victim as "Herold Brinebach" and saying his body would be found along the Boston post road.

Commissioner Mulrooney dispatched several hundred policemen to scour the territory but no trace of a new killing has been found.

(By The Associated Press)

NEW YORK, June 19.—Falling to rise to the bait of a score of police automobiles parked in lonely sections of the Borough of Queens, New York's homicidal maniac with two victims already to his credit today continued to spread fear through the district.

The mysterious slayer in a series of letters to a newspaper announced he would commit his third murder on a list of fourteen at College Point, Queens, last night, but apparently was frustrated by a mobilization of 2,425 police.

Seated In Auto

As both previous victims were men seated in parked automobiles with women companions, a score of department automobiles occupied by detectives and policemen were planted in secluded spots in hope that the slayer would pick one of them as his third victim.

In addition to the parked automobiles police on motorcycles, in emergency wagons and on foot patrolled all roads in the borough.

During the day Queens police received a letter apparently from the slayer in which he taunted them and enclosed an empty shell evidently used in one of the two slayings.

A call was sent out by police to all institutions for the insane throughout the east to report any escaped inmate and a house to house canvass was made in Queens for information regarding men who had a reputation for acting queerly. Descriptions of the slayer, as given by the two women companions of the slain men, were broadcast.

ACCIDENTS MAR ROYAL OUTING

Former Kaiser's Party Figures In Auto Boat Mishaps

AMSTERDAM, HOLLAND, June 19.—Two accidents which brought injuries to several of his guests and servants marred an outing of the former kaiser, William Hohenzollern, and his family yesterday. One was a boat explosion and the other was an automobile accident.

Wilhelm, with his wife, the Princess Hermine, and about 10 members of his household were guests of the Countess Pannwitz in two boats on Lake Kaag, near Leyden, when an explosion occurred on one of the craft.

The boat, which was not that on which the former kaiser and Princess Hermine were riding, burst into flames and sank rapidly.

Three persons were injured. Two of them being members of the former kaiser's household and the third a mechanic.

In the second accident a motor car in which servants of Wilhelm were traveling between the Hauge and Harlem overtook and the occupants were slightly injured.

AKRON DECLARES WAR ON ACTIONS OF CITY GANGS

Police Charged To Smoke Out Racketeers In Concerted Drive

(By The Associated Press)
AKRON, June 19.—Police are under orders today to smoke out and prosecute racketeers as vigorously as possible.

The orders were issued by Safety Director H. H. Arnold who blamed racketeers for two fires, an explosion, an attempted dynamiting of a downtown filling station and death threats received by a West Hill resident.

The fires, explosion and attempted dynamiting occurred yesterday in what was said to be a peak day for racketeering activity.

One of the fires damaged the central plant of Howard's Cleaner, Inc., and the other partly destroyed the furnished home of Dushan Murgil, owner of an automobile top shop. In both, the downstairs windows were closed, and it was reported that gasoline had been poured down from the floor above.

Destroy Steam Shovel

Soon after a steam shovel, owned by the Frank George Construction company, sewer contractors, was destroyed by dynamite explosion which rocked homes in Cuyahoga Falls, workmen constructing a large gasoline station for the Big Four Gas and Oil company, found eight sticks of dynamite buried near one of the building's main supports.

The death threats were sent to Paul Graña, a guard of detectives and deputy sheriffs was thrown about his home.

"Such outrages will not be tolerated," Arnold asserted. "The outrages are specific instances of the work of paid racketeers. The attempted dynamiting of the gasoline station undoubtedly would have cost several lives and would have destroyed much property had it been successful."

Gasoline war and labor trouble was blamed for the dynamiting. The fires were believed retaliatory measures, both by the same gang.

Homely Farm Noises Become Music At Husband's Words

WICHITA, KAS., June 19.—Edward Peterson had a wife, but lacking the pumpkin shell highly recommended for such purposes, couldn't keep her very well.

However, she was back home today, and forgiven her husband said, for her third unsuccessful effort to quit the farm where Peterson raises wheat instead of eating pumpkins.

An esthetic ear was blamed by Mrs. Peterson for her most recent elopement. The daily discord arising from the simultaneous squawking of a windmill and the squeal of a hog, she said, is just too much for one of finer sensibilities.

This goaded, she eloped with Robert Jorgenson, 18.

Regardless of Mrs. Peterson's frequently changing attitude

toward her husband, her affection for the family automobile remains constant, and she took it with her. She was arrested at El Paso for car theft.

Indicating that an ear can be esthetic and at the same time practical, Mrs. Peterson decided to have another tilt with the windmill symphony, when her husband said:

"Home with me, or to jail with Jorgenson."

To win such overwhelming popularity Sohio Ethyl must have demonstrated that it is no ordinary motor fuel. Certainly it has! Even without Ethyl, Sohio would be an outstanding gasoline. With Ethyl it becomes the ideal anti-knock fuel for which modern motors are designed. Try it in your car. Fill up at the Red-White-and-Blue Sohio sign anywhere in Ohio.

DEATH THEORY NOT BELIEVED

Cleveland Men Supposed Drowned Are Safe, Officials Think

CLEVELAND, June 19.—While an airplane and coast guard boats searched today for the bodies of three men reported drowned in Lake Erie near here Saturday, more strength was given to the theory that the men are still alive.

Cleveland police, who investigated the drowning, were told that Roy Landreth, a constable, saw two youths in a boat similar to that from which the three were reported drowned, about 4 a. m. or sometime after Miss Olive France, 24, their companion, said their boat capsized. Landreth said his coast-guard boat cruising the lake steered close to the other craft, and as it drew near the youths shouted some joking remarks.

The police investigation was started when William H. Brown of Pittsburgh father of William Brown, one of the youths, said to have drowned, expressed his doubts that the boat would sink.

Miss France repeated the story to Safety Director Edwin D. Barry's investigating committee that she told when rescued in the water Saturday morning. She reiterated how the three youths tied life preservers to her so that she might not meet their fate. The boat capsized after the motor stalled and a sail was raised, she said.

Despite the theory that the men are alive there has been revealed no motive for their sailing away and leaving Miss France to an uncertain fate in the water.

A Frenchman who has given more than 100 pints of his blood in transfusion operations has established a world's record of the kind.

Mrs. Hill took her grocer's hint and gets whiter washes easily

"I'm so grateful to my grocer for getting me to try Rinsol," says Mrs. Hill. "How easy washday is now... why all I do is soak and rinse! That saves mending, let me tell you! My clothes last much longer now. Rinsol is just grand in our hard water; it gives such thick, soapy, lasting suds."

For dishwashing, too Rinsol is the only soap you need—for the wash, for the dishes, for all cleaning. So economical; cup for cup it gives twice as much suds as light, puffed-up soaps. And no softener needed, even in hardest water.

Wonderful in washers; the makers of 38 leading washers endorse Rinsol. Safe for finest linens. Get the BIG package.

INCOME TAXES MAY INCREASE

Temporary Reduction Of Sum May Halt With Expense Increases

WASHINGTON, June 19.—Washington is wondering if income tax rates are to be higher next year. Prospective expenditures for the next fiscal year are already estimated to exceed the total government revenue expected within that period. From present indications, in fact, the national treasury faces the threat of a deficit on July 1, 1931.

The one per cent reduction in taxes on incomes of 1929, those paid this year was a temporary measure only. It took the form of a joint congressional resolution, instead of the usual tax revision measure, and, unless action is taken to prolong its life, the rates on incomes of 1930 will revert to the level of those of 1928.

Treasury officials are watching the situation closely, but decline to express an opinion on whether the reduction can be extended. A final decision will be reached in the fall. In his budget message of last December, President Hoover estimated

SENATE LOOKING TOWARDS ENDING OF SESSION SOON

Rivers, Harbors Bill And War Pension Remain For Attention

(By The Associated Press)
WASHINGTON, June 19.—Wearily and hopefully, senate leaders looked forward today to adjournment some time next week and gave their backing to efforts to make this possible.

The first step was the negotiation of agreements for votes on the World War pensions bill and the rivers and harbors measure. They were confident these would be disposed of by the end of the week, with the close of the session to follow shortly thereafter. It was arranged that the veterans' measure be given first attention today, provided an agreement for a vote could be reached. It had widespread support, and there was every likelihood of passage by nightfall.

Wants Speedy Ending
Chairman Johnson of the commerce committee then intends to press to a speedy termination the controversy over the rivers and harbors measure which centers around the amount water to be withdrawn from the Great Lakes for the Illinois, waterway project.

Senator Glenn, Republican, Illinois, will make the final appeal for his state against the amendment of Senator Blaine, Republican, Wisconsin, which proposes to restrict the quantity of water which may be diverted.

Both sides in this contest have agreed to permit an early vote but the senators representing the other Great Lakes states have intimated very strongly that if the Blaine amendment is not approved there will be "plenty" of debate before the rivers and harbors measure is allowed to come to a vote.

House Ready To Act
Meanwhile the house was ready to act today on the second deficiency measure carrying funds to meet new projects authorized legislation at this session and for emergency situations.

Quick disposition of this measure in the senate is planned. Although leaders are prepared for severe attacks upon the \$10,000,000 item for starting work on Boulder Canyon dam in the Colorado river. Until this important appropriation measure, the last of the supply bills is made, no move will be made toward adoption of an adjournment resolution.

Youngstown Man Enthusiastic About Konjola.

Tells How Famed Medicine Ended Eight Years Of Suffering—Entire Family Helped

MR. HOMER BARGER

"I suffered for eight years without finding a medicine to help me," said Mr. Homer Barger, 650 St. Innes street, Youngstown. "My kidneys gave me a lot of trouble and sharp pains centered in my back. A pale liver subjected me to frequent dizzy and staggering spells. My stomach bloated terribly after meals and the pains in that region were severe. I had pains around my heart and was frequently short of breath."

"In this condition I began taking Konjola and the improvement amazed both me and my family. The first three bottles helped wonderfully and I eagerly kept on with the treatment. After I had completed the seventh bottle my health troubles were over. I am free from aches and pains and my digestion is as good as it was twenty years ago. My kidneys and liver function perfectly. My entire family have taken this medicine and been benefited."

Konjola is a new and different medicine containing the juices of 22 roots and herbs compounded with other medicinal ingredients. It works with the sufferer's food, eliminating poisons and restoring normal activity to the weakened organs.

Konjola is sold in Salem, Ohio at J. H. Drug Co. 3 Stores and by all the best druggists in all towns throughout this entire section.—Adv.

MARKETS

MARKET IRREGULAR

NEW YORK, June 19.—The stock market was highly irregular in today's forenoon trading. Although the wholesale liquidation was checked, active shares rallied 2 to 5 points at the opening. But the list soon yielded under hangover selling and most of the advantage had been cancelled by noon.

Initial gains ranged from 5 to 9 points in such volatile shares as Worthington Pump, Case, Eastman Kodak and allied Chemical, but these were materially cut after the market began to yield.

U. S. Steel, after sinking a shade lower to 158, rebounded to 160 but failed to hold. American Telephone, consolidated Gas, New York Central, Public service of New Jersey and John-Manville were among the many issues to show early gains. A couple of points, only to sink back to around the Wednesday close.

Call money renewed at 2 1/2 per cent.

ROUGH WATER HALTS SEARCH

Will Examine Speed Boat To Find Reason Why Men Are Drowned

TOLEDO, June 19.—Rough water slowing the search for the bodies of seven men believed drowned when they, with one other whose body was found Tuesday, raced in their speed boat toward Pelee island last Saturday, attention was turned to the boat in hope of ascertaining how the drowning occurred.

Investigators directed by Coroner Frank G. Krefz were to examine the undersurface of the craft minutely on the theory that it might have hit an obstruction in the water and thrown its eight passengers out. The boat was to be towed to Toledo today from the coast guard station at Marblehead where it was taken after it was picked up near West Sister island in Lake Erie Sunday.

According to the coroner the most plausible explanation is that the boat hit a fish net.

Since the body of John Liptack, mechanic on the boat, was found floating in a life preserver, it was generally assumed that the other men are dead.

MOVIES

"THE GOLDEN CALF"

Comedy, music, dancing, youth and beauty are the high points of "The Golden Calf," Fox Movietone comedy with music, which opens a three days' engagement at the State Theatre today.

An all-star cast and a chorus of 100 of Hollywood's most talented and beautiful dancing girls, contributes much toward making this one of the most outstanding pictures of the year.

The cast includes Sue Carol, Jack Mulhall, El Brendel, Marjorie White, Harold Keener and Paul Page, all well known for successful productions seen here before.

Millard Webb, well remembered for "Glorifying the American Girl," "Gentlemen of the Press," and "Painted Angel," directed the picture. "The Golden Calf," Frank Merin directed the picture, written by Harold Atteridge, and Earl Lindsay staged the spectacular dance ensembles.

AT THE GRAND

Hoot Gibson trekked into the wastes of the Mojave desert to make some of the most stirring scenes in his latest western drama, "The Mounted Stranger," coming to the Grand theatre tonight. The picture, based on Henry H. Knibbs' famous story, "The Riding Kid from Powder River," is a tale of the old romantic West. Louise Lorraine plays opposite Hoot in the picture, which was directed by Arthur Rosson.

Hilarious approval follows the slapstick course of "The Aviator," talking picture playing at the Grand as the main feature for three days.

Edward Everett Horton heads the all star cast which includes Patsy Ruth Miller, Johnny Arthur, Lee Moran, Edward Martindel, Armand Kaliz, Kewpie Morgan, Phillips Smalley and William Norton Bailey. The picture is based on the successful stage hit of James Montgomery. The screen adaptation is by Robert Lord and Arthur Caesar. Roy Del Ruth directed.

"The Aviator" concerns itself with the fate of a staid author, who suddenly finds himself hailed as the author of a book on wartime flying experiences—courted by ladies.

COURT NEWS

Journal Entries

The report of the commissioners has been approved in the partition action filed by Ross R. Ruhl against Ethel Rhul Moore. The court has ordered a sale and entered a decree of distribution.

In the case of the First National bank of East Liverpool against Helen H. and Claude Nease, an action in foreclosure, wherein judgment for the plaintiff had been previously entered for \$20,609, a sale has been confirmed, a deed ordered and a decree of distribution entered by Judge W. F. Lones.

There has been a settlement out of court in the case of the Barrett Machine Co. against Wilbur Zeit and others, and at the costs of the plaintiff. The action was one for the appointment of a trustee under the bulk sales law.

Sale Confirmed

Settlement out of court has been entered in the foreclosure action recently filed by the Perpetual Savings & Loan Co. against James A. McPherson, with costs paid and no further record appearing.

Leave to the defendant to file an amended answer at once has been granted by Judge Lones in the damage action filed by William Marcus against William Y. Graham. A jury was waived and there was a trial to the court in the replevin action filed by William Custer against W. J. Barlow as sheriff, and by agreement of the parties, the sheriff has been ordered by the court to release the levy and surrender to the plaintiff the property levied on. NEW YORK—Anybody desiring to get rid of an antique upon the use of which there are legal restrictions might take a tip. A bar that once was a busy spot in the Hotel Belmont and cost plenty was put up at auction. The first offering was \$2. Then an empty gin bottle. A seltzer bottle and two glasses were placed upon it. All were knocked down for \$27.

Persons who want anything know that The News is the Want Medium in this vicinity. So read it.

Tuning in on the Talkies

SAY what else you may about the movies, the original cast always travels with the film.

"Frozen Justice" sounds like the ice-man having his day in court.

Warner Bros. have "Recaptured Love" and Dorothy Burgess will be the girl to show how it was done in the movies.

Dorothy Burgess

While waiting for the stage drama to struggle to its feet, movie fans will see and hear George Arliss, in "Old English;" Otis Skinner in "Kismet" and John Barrymore in "Moby Dick" given voice by Vitaphone.

Joe E. Brown passes this opinion on Summer tourists: "Most travellers go abroad for the purpose of talking about their trip forever after and some go for pleasure."

Another movie merger combines entertainment with unknown people's troubles.

Fence-Rail Talkies

Farmer Silo says: "When my boy gets back from college he won't be able to drive a horse in English. I've just paid \$10. each for Latin, Greek and French and \$100 for Scotch."

For "Double Feature" Day "Short Skirts" "The Old Lady Shows Her Medals."

Pity the Sky Police

In the opinion of Al Jolson solariums on roof-tops are apt to congest air traffic over big cities these Summer days.

Incide Information
"The Lamb and the Lion" is a movie that can have only one finish—for the lamb.

DEADLY FUMES IN OHIO BLAZE

Films Generate Gas As Columbus Business Block Is Damaged

COLUMBUS, June 19.—Bromine fumes from burning films in the basement of an East Broad street studio sent five firemen to a hospital last night after fire companies had spent three hours checking a smoldering blaze that caused \$100,000 damage.

Five other firemen were injured either by inhaling smoke or by broken glass. None was hurt seriously.

The fire broke out in a business block housing stores and offices and spread slowly from one basement to another.

When the flames reached the basement of the Drexheimer Studio, Inc., the fumes from stored negatives mixed with the smoke. The firemen affected by the fumes were carried to St. Francis hospital, where they were revived.

The poisonous gases they inhaled in the studio basement were of the deadly character of the fumes that claimed scores of lives and seriously injured many in the Crie Clinic at Cleveland a year ago.

Those taken to the hospital are: Robert J. Hott, Homer C. Mills, H. C. Libert, Robert Demory and Harry Haycock. Firemen injured by smoke and broken glass are: Joseph Jolley, Capt. James M. Beyers, L. C. Fox, Dann Quinn and Grover F. Johnson.

A large part of the fire damage was confined to ruined stock. The flames ate through the basements of Bard and Barger, Inc., the A. C. Spalding and Brothers sporting goods firm, the Crawford Gabriel Shop, and a ladies clothing store.

THE DAY In Sports

HERR MAX SCHMELING, German's demon of swat, is missing his great chance to become the most popular world's heavyweight champion since Jack Dempsey. His opportunity towards meriting this distinction with America's fighting public for fans of other countries matter less than a passing glance when world's championships are concerned—is in his dropping ring activities and stepping behind the footlights and exacting a livelihood through other methods than the game bequeathed the athletic world by Mr. Queensbury.

The German lad has all the qualifications of the type of pugilist who can advance into popularity with the crowd. A pleasing personality and as nice a chap as any foreign lands have sent to this country for an invasion of American sporting prestige. Maxie is not doing right by his followers and will probably lose them unless he proves definitely, and does it soon, that he is deserving of the titular toga which John Cuckoshay awarded him through his misplaced belief.

BIG MONEY is slowly, but surely, sounding out the death knell for boxing of all sorts. Not that the game would be harmed if it were kept out, but it appears that a champion is not a champion anymore unless he heeds the modernistic call of Hollywood or Gotham's stage. Tex Rickard's presence in America would have quickly averted the impending disaster so seriously threatening fistball. The most famous promoter the world has ever known would have gone even farther—a champion would have been crowned sooner than that accomplished—or was it? through the Schmeling-Sharkey battle.

Max has said that by next June he will have made \$50,000 without entering the ring for a bona fide embroglio. He probably is sincere, so until he fights again and proves that he is a champion—and American champions must fight—he will not be recognized as such.

MEANWHILE the attention is all on the impending George Godfrey-Primo Carnera tussle, the century's real battle of the giants, scheduled to take place this month. If Carnera lacks the Leiperville assassin he will be worthy of recognition for a titular bout. But there are few worthies willing to risk their good necks in the same ring with him if he comes through the victor. New York's boxing commission will probably be forced to create a new fight division—the heavy heavyweight class.

CHARLES ARTHUR SHIRES bids adieu to his White Sox mates and is wearing the flannels of Clark Griffith's Washington Senators. Temporarily Whataman will be relegated to the bench. From the bench it will be only a short ways off to the minors, unless of course, the various clubs refuse to waive on him, a likely action, for Arthur is a really classy ball player and a fine drawing card to the club that gets him.

Shires' return to the Senators brings him back to where he started in the majors. He joined Washington under the name of Robert Lowe in 1925 but never signed his contract. He was in the Texas league, with Waco for two seasons and while in his third, was sold to the White Sox. He batted .312 last year and has a major league average of .319 for two seasons.

JERSEY CITY—John Hertz Murrel, star army back, who caught many a forward pass, is catching hot rivets in a bucket at \$75 a week. On a three months furlough since being graduated at West Point, he has taken an iron worker's job for pin money prior to reporting for duty with the army air service.

Pesek Wins Again
COLUMBUS, June 19.—John Pesek, the Nebraska tigerman, today had two wrestling victories against Ad Santelli, Oakland, Cal., to his credit. Santelli took the first fall from Pesek last night, but lost the match when injuries suffered in the second fall made him unable to continue.

Athletics Strengthen Hold On First Place As Tribe Loses

(By The Associated Press)

The National league club of the east, which are just opening their second western tour, found surprising success at home but it is rather doubtful whether they will continue it on the road.

The New York Giants, who routed their intersectional opponents to the tune of nine victories in 12 games at the Polo grounds, had a large amount of trouble yesterday in taking their first game of the tour from the Pittsburgh Pirates, who won but four out of 12 away from home. The final count was 4 to 3 for New York, and it took a sparkling unassisted double play by Hughty Critz to end the game before the Pirates had tied the score.

Putting Contest At Club For Women

A putting contest for women of the Salem Golf club will be held at 10:30 a. m. Friday at the golf course. A prize will be presented to the winner and all the members interested in golf are requested to attend. A lunch will be served at noon.

Plans have been made for other contests and meetings will be held each Friday.

YALE FAVORITE IN BOAT RACE

NEW LONDON, CONN., July 18.—Unless experts are grossly deceived, the annual battle between Yale and Harvard tomorrow on the picturesque, leisurely Thames river will develop nothing more startling than a pageant of blue oarsmanship, so far as the main or varsity engagement is concerned.

Yale today ruled an overwhelming favorite to win from the ninth time in 10 years. Based upon the conclusive evidence of form manifest so far this year, in competition as well as training. Critical opinion was unanimous that only an accident or a bad break of racing luck could prevent the Elis from outrowing their rivals over the four mile course from Bartlett's cove to the Railroad bridge.

Harvard's partisans, cherishing no more than an outside hope of doing anything to check Yale's defeated varsity eight, pinned their chances of victory mainly upon the rugged young crimson freshman eight.

Simple Remedy For Bad Stomach Gives Swift Relief

No Need of Strong Medicines or Diet. Safe and Simple Home Recipe Keeps Stomach in Fine Condition

If you are a victim of Stomach Troubles—Gas, Sourness, Pain or Bloating—you may have quick and certain relief by following this simple advice.

Don't take strong medicines, artificial digestants or pull down your system with starvation diets. For within reason most folks may eat what they like if they will keep their stomach free from souring acids that hinder or paralyze the work of digestion.

And the best and easiest way to do this is to follow every meal with a little Bisurated Magnesia—a pleasant, harmless, inexpensive, and handy to use preparation that all reliable druggists can supply in either powder or tablet form. Its use promptly neutralizes acidity and keeps your stomach sweet and clean.

A week's trial of Bisurated Magnesia should quickly convince you that 90 per cent of ordinary stomach distress is absolutely unnecessary. Be sure to get Bisurated Magnesia and give it a good trial. Adv

THE HOME KITCHEN

By Jeannette Young Norton

Eating raw vegetables and fruits is the simplest way of cutting down superfluous summer cookery. And exceedingly wholesome, too. Still, there are many needful foods that must be cooked, and on of the revived labor-savers which is growing in vogue in paper cookery. (Years ago it was known as paper bag cookery, but the new type consists merely of paper sheets, which can be folded and tied up to fit contents.)

There's much to be said in favor

of this method of preparing cooked foods. For one thing, it makes possible the cooking of two or three or even more foods in one large saucepan. Whatever meats or vegetables are to be prepared are tied up in separate paper parcels, then placed together in one large pot. Each cooks by itself, and there is no communication of odor or flavor as the packages are tightly tied. Moreover, the pot itself remains untouched by the food cooked in it. So much for the saving of labor.

In addition this new method has the advantage of preserving flavor and juices to full. So much evaporates in ordinary cooking.

The method of use is easy, too. The paper sheet is slightly moistened, then the food spread on it, and sprinkled with whatever seasoning or shortening it requires. The four corners of the sheet are then tied together firmly, leaving some room for expansion, but no space for escape of steam. Then the paper cooker is placed in any saucepan containing a small amount of boiling water. This water does not soak through and dissolves the juices of the food as the cookery paper is especially prepared to resist it.

Tire prices are down!

—anyone can afford Goodyears this summer

When rubber goes down, tire prices follow.

Rubber is 'way down now, and tire prices are the lowest they've ever been.

Wise buyers are taking advantage of this situation — reaping the utmost in value.

They're buying Goodyear Tires in greater volume than ever before.

The reasons

why Goodyear Tires give utmost value are not hard to state.

In both the two main parts of

a tire, Goodyears are definitely superior.

The Goodyear All-Weather Tread is superior in traction.

The Goodyear Supertwist Carcass is superior in vitality and long life.

If you think these are merely advertising claims demand to see the proof.

Any Goodyear Dealer will be glad to demonstrate the facts.

The facts certainly are: Goodyear Tires *do* give extra value.

That's why more new motor cars

leave the factories on Goodyear Tires than on any other kind!

That's why more transcontinental, urban and interurban buses and coaches operate on Goodyear Tires than on any other kind!

That's why more truck tonnage is hauled on Goodyear Tires than on any other kind!

That's why, throughout the world, year after year, more people ride on Goodyear Tires than on any other kind!

No mistake about it, this season is the chance of a lifetime to take full advantage of low tire prices and high Goodyear value.

Therefore: *now is the time to get yours!*

"Clear up your skin, dear, and you will be popular, too"

If you desire a clear skin you must keep your blood in good condition.

S.S.S.

may be found in every good drug store in America. Thousands of users have testified to its benefits in unsolicited letters of gratitude. Seek energy, vitality and a clear skin through the remedy which is made from strictly fresh vegetable drugs and has stood the test for over 100 years. Sold in two sizes. Ask for the larger size. It is more economical.

A lovely, clear skin is within your reach

WITH the last blemish gone, confidence returns. More friends, more invitations, more good times. With the joy and pride of possessing a clear skin, self-respect increases.

A lovely, clear skin is within the reach of all. To you who have lost it, hope is offered, that you, too, may have a beautiful skin, rose-petal in texture, pretty as a picture and without a single pimple.

Skilled physicians recognize the appearance of skin eruptions as being an indication that the body's power of resistance is low.

The natural way to remedy this condition is to restore the red-blood-cells to normal.

This is why so many thousands have been enabled to free themselves of these unsightly blemishes and painful skin annoyances by taking a course of S.S.S.

S.S.S. helps Nature restore the blood to its normal state. Healthy blood nourishes the body and works against infection and disease.

Without plenty of rich, red blood there would be no strong, sturdy, powerful men, or healthy, beautiful women.

If you are troubled with so-called skin disorders, take a few bottles of S.S.S.
